

The Well Tempered Pianist

Play Beyond Your Wildest Dreams...

What We Believe

Music can be a joyful experience for everyone. You can learn to relinquish obstacles that prevent you from becoming the pianist you work so hard to become. Through our unique approach to the Alexander Technique and piano, you will learn the tools you need to help you rid yourself of your obstacles and discover the best of yourself in your playing.

How We Work

Our workshop is organized like a masterclass with students having the opportunity to play and experience this work first-hand. The experience of observing can also be a powerful one. We limit the size of our workshop to offer each person the chance for one-on-one work using the Alexander Technique. One component of the Alexander Technique is touch, not a manipulative touch, but rather a light guidance. Your system can experience a powerful reorganization from even this light suggestion.

WTP workshops teach you skills that last a lifetime. You will experience your playing in a new way, opening you to possibilities you may not even have known existed...

Upcoming Workshops

Saturday, March 27th 1-5pm

M Steinert & Sons
162 Boylston Street
Boston, MA
Cost: $100, limit 12 pianists

Are you ready to start playing beyond your wildest dreams?
